11.10.2021

November Meeting Highlights:

For those of you who may not have made it to our November meeting, here is a summary of what we discussed!

We welcomed Darian Graells, the new Coalition Coordinator for Region 10! She is super high-energy and excited to grow the coalition!

We discussed what coalition members find beneficial about their involvement and how to engage more members.

We got an update from Kya on how the Youth Coalition is doing with their officer elections and mural painting!

We hope to see some new faces at our next meeting!

Current Projects

Here's a little overview of a FEW of our MANY current projects. This section will contain updates, project summaries

Faith Based Communities

The Coalition has been working on specific outreach to the faith based communities. There are no current participants from this sector. Invitations to participate were sent to all religious institutions in the district.

Community Needs Assessment

We just submitted our final draft of our Community Needs Assessment. This involved a collaboration from many individuals to identify the communities needs and risk factors for the youth.

Increasing Coalition Capacity

We are working on continued outreach to inactive members and new potential members to increase the community involvement in the coalition. We have put flyers out in the community and performed individual outreach

Youth Coalition Update

With more youth participants than ever, we meet once a month to discuss educational opportunities and any issues that the students feel are a concern in their communities. The youth coalition just had elections for their officers! During our November meeting we talked about: Hosting a Movie Night at LSM, Further Elaboration on Upcoming Rock Mural and notified the coalition on upcoming enrichment opportunities and volunteer opportunities.
